

MDWDS Figma Changelog

Instructions: Add a new Version block by typing “@figma”, which will show a list of blocks you can add. Tab to select the one called “FigmaMDWDS Changelog”.

Version 0.1.X

in progress (EHunt)

1. General

- a. Created a “Document styles” page for styles used for documentation (not for components themselves).
- b. For future, redo the USWDS Variant Pair style as a MDWDS style (and simplify it!).

2. Banner Desktop and Mobile

- a. Adjust expand/contract icons to use USWDS library instead of MDWDS library
- b. Fix bug - Use expand_less (instead of expand_more) in Banner Desktop expanded=true
- c. Replaced standalone icons in Banner Desktop expanded=true and Banner Mobile expanded=true with new MDWDS icon components

3. Icon

- a. Deleted USWDS Icon components.
- b. Created 2 new MDWDS icon components – dot-gov + https.
- c. Created white variants of MDWDS dot-gov and https icons.

4. Header

- a. Adjusted Header to use MDWDS library.
- b. Adjusted Mobile Header to use USWDS library (no MD customizations yet).
- c. Create Maryland Header.secondary-link component. Refine further when Header design changes are completed.
- d. Replaced standalone Secondary Links in Header with new MDWDS secondary-link component.

5. Identifier

- a. Adjusted Identifier to use MDWDS library.
- b. Added secondary-nav-link for reuse for links in Identifier.
- c. Tried to match layout used on DoIT and Digital Playbook sites.
- d. Tried to find a middle ground between DoIT and Digital Playbook to create the definitive MDWDS Identifier to state sites.
- e. Improved Tablet and Mobile views.

6. Footer

- a. Adjusted Footer to use MDWDS library.
- b. Tried to match layout used on DoIT and Digital Playbook sites.
- c. Tried to find a middle ground between DoIT and Digital Playbook to create the definitive MDWDS Footer to state sites.

- d. Added an Examples page to illustrate how Identifier and Footer are laid out together.
- 7. **Logo**
 - a. No changes here.
- 8. **Button**
 - a. sdfdsf
- 9. **Combo Box**
 - a. sdfdsf
- 10.
- 11. **Add Logo variants**
 - a. Add variant for white text on horizontal and vertical Logos.
- 12. **Topics for Lilly/team**
 - a. Fix Banner, Header, Footer, Identifier so they are left aligned ?
 - b. Fix left alignment on Footer
 - c. Use FA icons for social icons (doit + playbook)? Also generally?
 - d. Get default breakpoints for MDWDS and use in Footer, Identifier, Header
- 13. Figure out how to replace theme variables
- 14. Idea - make mobile header component and variants
- 15. Fix USWDS bug with expanded nav items - icon name is wrong but icon is correct

Version 0.1.4

May 19, 2025

Note: Had to republish version 0.1.3 changes due to merge conflicts.

1. **Buttons**
 - Consolidated big and default button sizes by creating a size variable
 - Big buttons of all colors on USWDS added
 - Add micro-interactions like hover for prototyping
2. **Combo Box**
 - Hover and focus states added
 - Hover interaction for prototyping added
3. **Footer**
 - © copyright section of footer element now scales with the rest of the element
4. **New visual aid for MDWDS-specific components**
 - Replaced yellow star with green checkmark.
5. **Updated Figma file to bring it into alignment with USWDS Figma file.**
 - Replaced "Token" as page title on all pages.
 - Many pages were missing USWDS property/variant names. Added these by copying them from the USWDS file.

6. **Created a new variant for Banner Light with Flag.**
7. **Logos had padding but should be fit to size**
 - Removed left/right padding from Maryland State Logo Flag
 - Removed left/right padding from Maryland Flag Icon
8. **Header** - since padding has been removed from logo images, added 16px gap between the Site Title and the MD State Logo Flag – applied to both Basic and Extended Header.

Version 0.1.3

May 13, 2025

1. **Updated Figma file to bring it into alignment with USWDS Figma file.**
 - Replaced “Token” as page title on all pages.
 - Many pages were missing USWDS property/variant names. Added these by copying them from the USWDS file.
2. **Created a new variant for Banner Light with Flag.**
3. **Logos had padding but should be fit to size**
 - Removed left/right padding from Maryland State Logo Flag
 - Removed left/right padding from Maryland Flag Icon
4. **Header** - since padding has been removed from logo images, added 16px gap between the Site Title and the MD State Logo Flag – applied to both Basic and Extended Header.

Version 0.1.2

Mar 31, 2025

1. USWDS bug fixes

Variable name	Old HEX value	New HEX value
